A diagram of a table structure. It is a rectangular box divided into two columns and three rows. The top row is the header, with the first column labeled "Protocol (Key)" and the second column labeled "Vector of SParameter (Value)". The table is pointed to by reference numeral 1800. The first row of data has "SNMP" in the first column, pointed to by reference numeral 1802, and an empty cell in the second column, pointed to by reference numeral 1808. The second row of data has "HTTP" in the first column, pointed to by reference numeral 1804, and an empty cell in the second column, pointed to by reference numeral 1810. The third row of data has "FTP" in the first column, pointed to by reference numeral 1806, and an empty cell in the second column, pointed to by reference numeral 1812.
